

Admissions, Transfer Center, and Information for Students with Disabilities

If you are planning to transfer from a community college to a University of California or a California State University, you have a tremendous amount of information to consider. ASSIST (Articulation System Stimulating Interinstitutional Student Transfer) is California's official statewide repository of transfer information, offering easy access to a single database. ASSIST can help you determine if you will receive credit for courses you've already taken, and how those courses will apply to specific academic goals.
